

Call for sponsors

PyDay

17·november·2018

TENERIFE

pyday.pythoncanarias.es

What is a PyDay?

A PyDay is a one full day conference organized by Python Canarias, made up of a number of talks about the Python Language and related technologies. It is organized in

two parallel tracks, and it includes talks for all the expertise levels: beginner, intermediate and expert.

WHEN

THE 17TH OF NOVEMBER, 2018

WHERE

PHYSICS AND MATHEMATICS FACULTY
UNIVERSIDAD DE LA LAGUNA
TENERIFE · ISLAS CANARIAS

A photograph of a horse race in progress, with several jockeys on horses galloping across a green track. In the background, there are green hills under a blue sky with scattered clouds. A white fence separates the track from the spectators. A blue circle is overlaid on the left side of the image, containing the text 'Some numbers'.

Some numbers

Last edition we got plenty attention and achieve a big impact on social networks, two items we want to improve this year.

14 TALKS

120 ATTENDEES

+300 RETWEETS

What we talk about?

We are now just going over the call for papers process, so we can't announce the final list of talks, but our intention is to discuss the following topics:

Web Development	Good Programming Habits / Design Patterns
Data Analytics	Relational Databases / NoSQL Databases
DevOps / System Administration / Automation Scripts	Digital Currencies
E-Learning	Concurrent and Asynchronous Programming
Artificial Intelligence / Machine Learning / Deep Learning	Network Programming
Desktop Applications	Software Prototyping
Language Parsers / Scrappers / Crawlers	Automatic Testing / Continuous Integration
Internet of Things (IoT) / Embedded Devices	Game Development / Multimedia / Computer Graphics
Security	Mobile Development

Patronage Levels

Diamond • 200 €

- Sponsor Logo in poster and flyers
- Sponsor Logo and URL link in the event web
- Sponsor sticker for the attends
- Sponsor Flyer included in welcome pack
- Two invitation tickets
- Exposition stand

Sapphire • 100 €

- Sponsor Logo in poster and flyers
- Sponsor Logo and URL link in the event web
- Sponsor sticker for the attends
- One invitation ticket

Jade • 50 €

- Sponsor Logo in poster and flyers
- Sponsor Logo and URL link in the event web

Why sponsor

Sponsors made all of this possible.
Your sponsorship allow us to offer the event at a very tight price for the attendee.

Also, it allows us to record all the talks and publish it later on Internet. This give us higher visibility and scope.

In addition to helping the local community, companies and organizations get visibility, improved image and positioning. Also, the PyDay is the most suitable place to find talented and committed Python developers in Canary Islands.

What are we going to improve (with your help)

- A wider, better equipped and more suitable place
- More capacity (175 places)
- We will multiply the promotion in social networks
- Two coffee break and lunch for all attends
- Two invited international lecturers
- Collaboration with the local group Canarias JS

Contact with us

We are open to other, alternative forms of sponsorship.

What is Python?

A dynamic, high level language, with a very clear syntax

Multipurpose: able to do almost anything

Huge Library: both included and third parties libraries

Concise: do more things with fewer lines

Free software: under the Python Software

Foundation License, similar to BSD

Multiplatform: Unix, Windows, Linux and OS/X, among others

Multiparadigm: Object Oriented Programming, Functional, Imperative

Some folks using Python

The New York Times

Google

Dropbox

Mercedes-Benz

NATIONAL GEOGRAPHIC

The Washington Post

YouTube

INDUSTRIAL LIGHT & MAGIC

Why Python?

1°

First position in PYPL index (*Popularity of Programming Language*)

<http://pypl.github.io/PYPL.html>

3°

Third position in GitHub

<http://github.info/>

4°

Fourth most popular language in TIOBE

<https://www.tiobe.com/tiobe-index/>

1.3

More than 1,300,000 projects in GitHub

<https://github.com/search?q=language%3Apython&type=Repositories>

About Us

Python Canarias

This event is organized by the Python Canarias Association, a non-profit organization whose purposes are, among others, to promote the use of the Python programming language, to give help to those who wish to learn it and to promote programming as a basic educational competence
